CONGRESSMAN SAPP ON THE SITUATION .- COngressman Sapp, of Iowa, is in the city. For a month and better he has been at the Jordan Alum Springs of Virginia, nursing his wife and son, who are now recovering from a malarial attack. He feels hopeful of Gen. Garfield's election, and takes the same view as Senator Cameron and others, that the electoral votes of New York, New Jersey, and Connecticut will contri-bute to the result. As to Indiana Col. Sapp says it is a close fight, but he believes the republicans will be successful.

THE DEMAND FOR FRACTIONAL SILVER has doubled within the past week. The demand is principally for quarters, dimes and half-dimes. Much of the silver is sent out in \$70 bags, which gothrough the mails as registered matter. This s etting to be quite a popular way of ordering silver, in places where there are no banks and distant from the centers where fractional silver accumulates. Some silver has been sent in this way to postoffices as far distant as Oregon. It is noticed that in sending orders to the Treasury the term fractional silver coin is very frequently construed to include one, two and three cent pieces and nickels, but it does not. These coins should be ordered direct from the mint. The eashier of the Treasury is now shipping to various parts of the country, principally the south and west, about \$25,000 in fractional sil-

THE GULNARE BACK TO NEWFOUNDLAND .-Capt. Howgate has received the following telegram from Lieut. Doane, who went out in command of the exploring party in the Gulnare: "St. Johns, Newfoundland, Sept. 25, 1830.— Capt. H. W. Howgate:—Gulnare returned last evening. Lost one boat and all the deck load in gale on 3d of August. Reached Disco on Sta with two planks loose and stove in starboard quarter. Till 21st repairing; took two weeks to coal half supply; came in here mostly by sal; Pavy and Clay remained at Rittenbank; no casualties. Doane."

THE POLITICAL SITUATION THIS WEEK .- The letter of Gen. Hancock, on the subject of war claims, printed elsewhere in THE STAR, bas created a decided impression, indeed, some what of a sensation. It is conceded by republicans disposed to treat matters dispassionately that the declarations made are emphatic and honest, and will have the tendency to deprive the republicans of one of their most effective campaign guns. Said a democrat to-day: "Hancock's letter will silence, forever, the cry of 'rebel claims.' The letter is sententious, and has in it key notes which will be caught up and prove effective in the campaign." In all circles of public and private business channels the letter has been the topic of discussion. Democrats applaud it, and republicans are now yielding to the conclusion that it is better to let Hancock alone, especially so as to not make it necessary to draw from him any more letters. The only class who have criticisms to make upon the letter are claim agents and claimants themselves. The political week closes with considerable of a Hancock boom, but the republicans may perhaps have their turn next week. The great demonstration in New York; the almost universal concession that the fusionists have carried Maine, and the collapse of the "rebel claims" cry in the Hancock letter, all combine to make the democrats feel exceedingly exuberant just now.

SALE OF TUNISIAN RAILROAD.-The consul of the United States at Tunis informs the Depart ment of State that an Italian company has purchased from the English proprietors, after a sharp and protracted competition with a French company, the railway that connects the city of Tunis with its seaport town Goulette. The price paid was 4,125,000 francs, on which the Italian government guarantees an annual interest of 4% per cent. The Bey has also conceded to the competing French company the right to extend its road from Tunis, at which place the French-Algerian railway system ter-minates, to the Gulf of Gabez, with branches to Susa, Sfax, Monestere and Bezerta, on the Mediterranean, and one or two other towns in the interior. The company has also the privilege granted to it of making a harbor in the lake of Tunis, and of diedging and maintaining a navigable channel between the harbor and the sea.

STANDARD DOLLARS. - During the week the Treasury issued on orders received therefor 640,992 standard silver dollars. During the corresponding week last year, but 297,489 standard silver dollars went out.

ARMY ORDERS.—The following changes in the stations and duties of officers of t department are made: Surgeon B. J. D. Irwin is relieved from duty in the department of Dakota, and will report to the lieutenant general, commanding military division of the Missouri, for duty as attending surgeon at headquarters of that division, relieving Surgeon W. C. Spencer, who will report in person to the commanding general department of Dakota for assignment to duty. Surgeon C. E. Goddard will report, at the expiration of his present leave of absence, to the superintendent mounted resulting service for duty as not superior at the eruiting service for duty as post surgeon at the cavalry depot, Jefferson Barracks, Mo. Asst. Surgeon W. S. Tremaine is relieved from duty in the department of the Missouri, and will report, at the expiration of his present sick leave of absence, to the surgeon general. Asst. Surgeon Daniel Weisel will report, at the expiration of his present leave of absence, to the commanding general department of the east for assignment to duty. Assist, Surgeon Victor Blart is relieved from duty in the department of the Missouri, and will report, at the expiration of his present sick leave of absence, to the commanding general department of Dakota for for assignment to duty. Asst. Surgeon J. W. Brewer will report to the commanding general department of the south for assignment to duty. First, Lieut. Chas. A Booth, 7th infantry, will report to the superintendent general recruiting service to accompany a decachment. recruiting service to accompany a detachment of recruits to the department of Dakota, and then rejoin his station.

SUPERVISING STEAMBOAT INSPECTOR KIRBY, Of New York, has tender d his resignation, but 1: has not been accepted. He resigned some time has not been accepted. He resigned some time before the order requiring daily reports to be made of the business done at all the offices of the service, in order to attend to his private business. He is now merely attending to routine business of his office pending action on his resignation. Mr. Kirby, whose district is the second, resigns because he is going to engage in the construction of new steamers for the Fall River line. He old hot comparably hold an office under the government and do that work. The President's absence is the reason why his successor has not been appointed.

Virginia Politics. ORGANIZATION OF A REPUBLICAN READJUSTER PARTY IN THE FIRST DISTRICT.

[Correspondence of The Star.]

FREDERICKSBORG, Sept 23. A number of prominent republicans of the first (Va.) district, who are not in sympathy with the Woltz faction, and who will not support Mr. Woltz for Congress, believing that the interests of the party will be best advanced and secured by co-operation with the readjusters have taken measures to organize a republican readjuster party for the district. Their creed will be substantially republican on national issues, and that of the readjuster party national issues, and that of the readjuster party on state issues. They will give a hearty support in the present canvass to Garfield and Arthur e ectors, and Judge John Critcher for Congress. Hon. G. C. Rounds, of Prince William county, has been invited to take the position of canvasser at large for the district, and appoint a reliable republican canvasser for each county, who will be expected to appoint five or more who will be expected to appoint five or more

three-fourths of the republicans will support this new movement. REPUBLICAN READJUSTER.

Political Notes. Judge T. W. Bartley, of this city, who is in Ohio doing campaign duty for the democracy, writes to a friend in this city, giving it as his

additional ones for each township. It is as-

serted that the rank and file of the republicans

of the first district are in strong sympathy with the readjusters party; the indications are that

judgment, that Ohio will give a democratic majority in the October election. A letter has been received here from Representative Goode, of Virginia, in which he speaks very hopefully of his re-election. Isaac Cohen, the "agitator," has been heard

from. He is in Nevada; has turned democrat, and is trying to prevent the return of Senator Sharon to the Senate. Congressman Henkle, of Maryland, leaves tonight for Indiana to take the stump for Landers

and Hancock. The Tammany and Irving Hall democratic factions in New York have agreed to send a united delegation to the Saratoga convention

on the 28th. The anti-Mormon party in Utah have nominated for Congressional Delegate A. G. Campbell, a wealthy miner. He is a democrat, but will be supported by the republicans against George Q. Cannon, who will doubtless be re-

elected, however. Commissioner Raum and Judge Lawrence, First Controller of the Treasury, will leave tomorrow night for Ohio, to do campaign speakng. Commissioner Raum will speak as tollows in the state: At East Liverpool, Tuesday, Sept. 28: at New Philadelphia, Wednesday, Sept. 29; at Sandusky, Thursday, Sept. 30; at Port Clinton, Friday, Oct. 1, and at Bryan, Sat urday Oct. 2. He then goes to Indiana. The Griffin Sun, a Georgia democratic paper,

which supports Norwood for governor, charges that Gov. Colquitt and Gen. Gordon were both leading members of the kuklux in the past. In the fight over the election of governor the papers are reviving all the old accusations made by republicans in the days of reconstruction. The news from Maine, while evidently favorable to the democracy, is not without its drawbacks, and we greatly fear the consequence, admitting the greenbacker has been elected by the combined votes of that detested organization and the democracy; and really we know not but we had much rather have recorded our

usual defeat in that state than owe our triumph

to allies so obnoxious to all our ideas of the cor-

rect principles of finance, and all the traditions upon that economic question which have ruled the democratic party.-Richmond State, funder, It appears from a letter published by J. G. Judd, editor of the Post Office Gazette, that Gen. Walker, secretary of the democratic congres-sional campaign committee, requested Judi to examine the mail matter sent from that committee and detained by the postal authorities, because of alleged violation of the franking privilege. Mr. Judd writes that he hain't time to examine all the matter, but he selected at randem about thirty packages, which he opened. He found the matter to consist of selections from the Congressional Record, and it was eatitled to be sent under frank. Of the stamped matter, he found that the packages weighed

each one-tenth of one quarter of an ounce more than the postage it contained. PERSONAL-Gen. T. L. Chingman, of North Carolina, and D. G. Gillette, of New York, are at the Riggs.—Mrs. Julia Ward Howe is to preach at Tiverton, R. I., to-morrow after-noon.—Judge Aldis is in New York.—Judge and Mrs. T. B. Edmonds have returned to the city from Saratoga. -- Dr. C. P. Culver, of this city, is lying very ill of typhoid-pneumonia.—
Mr. and Mrs. J. Hegerman-Lindencrone sailed for Europe from New York to-day.—It is understood that Mr. Arthur Sullivan is to be knighted, and will return to the United States as Sir Arthur Seymour Sullivan. - Archibald Forbes, the well-known English newspaper cor respondent, sailed from Liverpool for the United States yesterday. He will lecture while in this country.—Hon. T. L. Clingman, of North Carolina, arrived at the Riggs House to-day.

The National Fair.

SUBSCRIPTIONS FOR THE PROPOSED INDUSTRIAL PARADE. A meeting of business men, to take action in regard to the proposed industrial parade, was held at Odd Fellows' Hall, last evening. Mr. W. J. Stephenson called the meeting to order, and stated that while the business men did not enthuse much in attendance, the money was generally forthcoming. He had every reason to predict that the parade would be much better than the one last year. Mr. J. P. D. Phelps, the secretary, read the report of the executive committee of twenty-five, which was given in last evening's STAR. Mr. F. K. Ward said that in two hours promiscuous work in seeking subscriptions yesterday afternoon he got \$202. The chairman said that a surplus of \$43 was left from the expenses of last year's parade, which, with Mr. Ward's collection. made in round numbers about \$250. The whole demonstration would, it was estimated, involve expenses to about \$500. There was no doubt of the display being a success. Mr. Phelps spoke brictly in favor of Washington business men taking more interest in such matters. He reported that the parade last year cost \$461 while the subscriptions were \$508.40. He said the Theater Comique, the National Theater and Adams Express company, would be in line, with bands provided at their own cost. He said that a mistake was printed when it was published that no band would be allowed to ride in the procession but must walk. The following subscriptions were announced: F. K. Ward \$15, Bresi'n & Ceok \$10, W. M. Galt \$10, Barbour & Hamilton \$10, C. W. Spofford \$10, Independent Ice company \$10, C. W. Spofford \$10, Independent Ice company \$10, C. C. Willard \$10, T. GERY.-Officer Wheelock, of the Seventa precinct, about 11:30 o'clock this morning, arrested Mr. John W. Barkson, an actor, an the charge of passing a forged check on W. W. McCulough, the well-known lumber dealer on New Jersey avenue. The check was drawn on the Farmers' and Mechanics' National Bank of Georgetown for \$14. payable to the order of Father Ferrin. Mr. McCullough states that Bankson came to his office dressed as a priest and ordered about \$2 worth of lumber, to be and ordered about \$2 worth of lumber, to be sent to a place on New Jersey avenue. The driver went to the place named, but failed to find any such number. The prisoner gave the check in payment and received about \$12 in change. Mr. McCullough gave the check in payment for freight to the Baltimore and Ohio Railroad Company, and a day or two afterwards was informed by them that in presenting the check to the above bank, it was protested and deemed a forgery. Mr. Bankson is about 34 years of age, and gives his residence as Keokuk, Iowa. He takes the character of an old man at the theater, and when arrested at the Washington house, this morning, he was dressed as a priest. When brought before Mr. McCullough, he positively identified him and his priest rig. At 2 o'clock he had not been released from the stationhouse, although his brother actors claimed that they could not do without him at the matinee performance at the National Theater of a "Golden Game" this afternoon. afternoon.

FOREIGN AFFAIRS. Practising for the International Rowing Match.

LONDON, Sept. 25.—The Sportsman this morning says: Trickett and Laycock, the Australians, did some moderate practice yesterday, but nothing eventful occurred. Hanlan and Elliott rowed together to Stella at a smart pace and returned at a fast rate. In the afternoon they again went out together, rowing a rapid pace. The effect of this hard work on Elliott was to make him sick after disembarking, but Hanlan finished as fresh as when he started.

A Fete Day in Madrid-The Pope's Present to the Infanta. MADRID, Sept. 25.-King Alfonso, by a royal order, has commanded that the 25th of September, (to-day,) the fete day of Santa Mercedes, be kept as an official holiday and gala day in the palace, in honor of the Infanta Maria Mercedes Isatella. This year, in consequence of the Queen's health, there will be no reception or banquet in the palace. The King and Queen resterday gave audience to the papal nuncio, who presented, in a splendid marble and ebony casket, the gift of the Pope to the Infanta Mercedes. It is a very rich satin robe, covered with lace, and displaying the escutcheons of Spain and the Pope on the skirt. The robe was made and embroidered by ladies of the Roman nobility, at the request of the Pope.

The Dulcigno Protest. LONDON, Sept. 25.—The correspondent of the Times at Gravoso, telegraphs as follows: The names of the 35 leading inhabitants of Dulcigno attached to the protest presented to the foreign consuls declaring that their fellow citizens will never consent to be detached from the Turkish government, are all names of those people tound over to Turkey beforehand, many of them being in the receipt of small pay and pen-sions which will vanish with the departure of the Turks. Other names represent the influence of the fanatical Moslem feeling. It is incontestably true that the well-to-do and most respeciable Mahommedans in the Duleigno district will welcome Montenegro, thinking any rule better than anarchy.

Consternation in Constantinople. Admiral Seymour's ultimatum to Reza Pacha, has produced considerable consternation in Constantinople, as the idea that something would interfere with the joint action of the powers is now dispelled.

Action by the Combined Fleet Imminent. LONDON, Sept. 25 .- A dispatch to Reuter's Telegram Company from Ragusa, dated 11 o'clk this morning, says: Admiral Seymour has just arrived, and it is stated that action by the combined fleet against Duleigno is imminent. Admiral Seymour has broken off negotiations with Riza Pacha. The Albanian league has threat ened to arrest the foreign consuls in Albania as soon as the fleet commences hostilities.

CONDITION OF THE COTTON CROP.

Reports from Seven States. New Orleans, Sept. 25.—The Democrat pub-lishes to day telegraphic reports from 54 central points in the cotton districts of Louisiana, Mississippi, Texas, Arkansas, Alabama, Georgia and Tennessee, giving the condition of the cotton crops up to September 24th. Louisiana:-Returns from 13 parishes report generally un-favorable weather during the entire week in 12 parishes and favorable weather in one parish. Worms have appeared in three and caterpillars in one. Picking has been retarded by rain, and in two cases by scant supplies of labor. There will be a reduction in the estimates of the yield in eleven and an increase over last year in two parishes. Alabama reports are received from 12 counties, showing generally favorable weather during the week, excepting Friday, in 9, and continued wet and unfavorable weather in 2 counties. Labor is sufficient and satisfactory in 4 counties, scarce and in demand in 2. The yield will be less than last year in 6 counties. about the same in one and a slight increase in one. Mississippi reports are received from 15 counties, in three of which no change is reported since the last statement. Rains have prevailed to a damaging extent in ten counties, more favorable weather in one. Worms have appeared in one. The damage caused by rain has been greatly over estimated in one locality. Labor is generally unchanged throughout the state, there being sufficient in most places and fully employed in one. One or two estimates of the yield are from 10 to 25 per cent less than last year, though in one locality the loss of nearly half the crop is expected. Arkansas-Reports from six districts are received. Continued gloomy rainy weather has prevailed in four districts. retarding picking, while worms have stripped the fields in one section. Labor is scarce in one. Favorable weather is reported in two. A decrease in yield of from 10 to 35 per cent is reported in five. Texas-Reports are received from nine counties, in all of which more or less rainy weather has prevailed to the retardation of picking. The estimated damages is half the crop in two counties; no change from last year in two; 5 to 10 per cent in one, and 30 per cent in one. There will be an increased yield in one county equal to 3, pr ct. Tennessee - Two reports are received, in one of which the weather i said to be fine and the prospect unchanged, in the other a decreased yield of 20 per cent. Georgia-Reports are received from two districts reporting more favorable weather in one. and in the other an expected increase of yield of from 5 to 10 per cent as compared with last year. In one county the receipts are already 40 per cent ahead of last year, and a considerable increase in one. There is no complaint of labor. GREAT PRESBYTERIAN COUNCIL. "Revealed Religion" Discussed. Philadelphia, Sept. 25.—Revealed religion, in s relation to science and philosophy, formed the topic discussed in all the papers read at to-day's sessions of the Pan Presbyterian Council in Horticultural Hall. After the usual devo-tional exercises, conducted by Rev. Dr. Green, cf Princeton College, president of the morning session, Prof. Henry Calderwood, L.L.D., o Edinburg, read a paper on the subject of the "Relations of Science and Theology," during which the author briefly and severally reviewed the distinctive anti-theological peculiarities of the writings of Tyndall, Darwin, Huxley and the modern scientists who have sought to con-trovert Bib'e assertion on scientific hypothesis. The fact was that there had been a firmly proclaimed antagonism to the recognition of the supernatural, and under these circumstances t belongs to theologians to make their appeal to intelligent men by a clear statement of their position. That theology has received able sup port from science was demonstrated by the speaker citing cases in which avowals of chrisspeaker citing cases in which avowals of christian faith had been made in all ages by men who had made scientific research the study of their lives. He observed that scientific men do not, in a body, participate in assaults made upon the christian church, and those who do are not scientists. GEN. TOWNSEND has returned to the city. He was at the War department to-day and called on Gen. Drum and his former chiefs of division in the adjutant general's department.

There was a curiously dramatic scene in Del monico's the other day. A slight young fellow, with a red moustache, sat in the care with a couple of friends. An elderly man, with a gray moustache, sat at a neighboring table and played with a crutch as he watched the younger man. The young man was James Barton Key. The elder man was Gen. Daniel Sickles, who killed Philip Barton Key one remarkable day in Washington. Fortunately the vendetta is not an American institution.—The Hour.

OUR PUBLIC SCHOOLS. Report of the Board of Trustees.

The board of trustees of public schools today transmitted to the Commissioners of the District the following communication: "The board of trustees in response to your communication of July 14th, requesting 'esu-mates of the necessary expenses of con-ducting public schools for the fiscal year ending June 30th, 1882, with such information and suggestions as to their present condition and wants as you may deem important,' has the honor to submit the following report and recommendations, with estimate of the amount that will be required for the support of the pub-lic schools in the District of Columbia for the fiscal year ending June 30th, 1882: The number of youth of school age (6 to 17 inclusive) in the District of Columbia, according to the census of 1878, was: White, 26,426; colored, 12,374; total, 38,300. The whole number of pupils enrolled in the public schools for the school year ending June 30, 1880, was: White, 16,914; colored, 9,505 total, 26,419; increase over the enrolment of last year, 1,289. The average number of pupils en-rolled in the public schools for the school year ending June 30, 1880, was: White, 13,978; colored, 7,602; total, 21,580. The increase over last year was 1,191. The number of teachers employed for the school year ending June 30, 1880 was: In the white schools, 281; in the colored schools, 152; total, 433. The total expenditures for the support of the public schools for the school year ending June 30, 1880, were \$438,567.42.

SCHOOL BPILDINGS. The number of school rooms owned is: For white schools, 166; for colored schools, 98; total 264. The number of school rooms rented is: For white schools, 93; for colored schools, 27; total 120. An appropriation for two buildings of twelve rooms each-one for the white schools and one for the colored schools of Washingtonhas been made, and the work on them has already commenced and will be finished by the end of the present school year. Estimating the cost of a site and school building of tweive rooms at \$40,000, the following is the estimated cost of buildings needed to supply the place of the rented rooms: For white schools: In Washington, \$281,250; in Georgetown, \$7,500; in the county, \$15,000; total \$303,750. For colore schools: in Washington, \$45,000; in the county \$11,250; total \$56,250.

for the support of the public schools for the fiscal year ending June 30, 1882:—Salaries of teachers and superintendents, \$333,000; wages of janitors and sweeps, \$27,000; rent, \$28,000; fuel, \$10,000; repairs, \$20,000; general supplies, \$15,000 insurance, \$2,500; printing, \$4,000; secretary and clerks, \$2,000; miscellaneous expenses, \$5,000 interest on Linthicum loan, \$2,400; buildings and

RECOMMENDATIONS. We recommend that the \$100,000 for school buildings be distributed as follows:-For the purchase and erection of school buildings in the second division, \$47,000; do. fourth division, \$10,000; do. county, \$5,000, do. colored schools, \$35,000. We call attention to the fact that the crection of the Force and Peabody buildings has enabled us to release five rented rooms in the first division and seven rented rooms in the third division.

A most serious question demanding immediate attention is the accommodation of the high schools for the boys and girls of the white schools of the District. There will be during the present school year about 250 pupils in these schools, and at least 300 during the fol-lowing year. They have no building designed specially for their use, and with this year will outgrow their present inconvenient and crowded quarters in the third stories of the Seaton and the Franklin buildings. It would not be economical and is not practical to supply this want by renting. Suitable buildings for this purpose cannot be rented. We have, therefore, to recommend most urgently that the old Washington school fund, amounting to \$70,630.49, now invested in 3.65 District of Columbia bonds, be appropriated to the erecting of school building for the boys and girls this site, and its situation is excellent for the accommodation of a class of pupils coming from all parts of the District. It is centrally situated east and west, and as the city is rapidly extending north, it will soon become central north and south. The street railways passing by and near it make it accessible to the more distant parts of the city, and would be a great convenience in bad weather. These are very important considerations in locating a building which, from the nature of the school to occupy it, must receive pupils from all parts of the

THE BRITLEBORO' BANK FORGER IN JAIL.—
There were large crowds at the depot in Brattleboro', VL., yesterday morning, expecting the arrival of the alleged ferger, S. M. Waite, who was arrested in Omaha. The train was stopped a mile below the depot, where a carriage was in waiting, and Waite was taken to the county jail. Waite declares that he did not take more than \$500 with him on leaving Brattleboro', and that dividends were regularly paid while he was in the bank to his directors, when they positively knew there was no capital upon which dividends could be earned.
